## THE TRAVEL ISSUE

I had the opportunity to attend Lineapelle, a massive leather trade show in Milan, Italy, this year. My friend Carina, master shoemaker from Stockholm, met me at the airport and we did some sightseeing too. We visited Florence, with a special interest in evaluating the merits of every single gelato place we could find. I hope to go back someday to continue my research.

Dale and I also went on a Country Family Reunion classic country music cruise. Bless my nerdy little music-loving heart, I had the best time! Music is how I recharge my creative energies and stay inspired—if I go too long without music I become very grumpy. You can tell by the look on my face that I filled up with joy on the cruise!
